

Position: Senior Engineer

Location: Kilmarnock

Salary: Competitive (+performance bonus)

We are recruiting an experienced Senior Engineer to join our award-winning consultancy on a full-time basis. The role will report to an Associate and will lead project design and delivery in line with company objectives.

KEY RESPONSIBILITIES

- Co-ordinate project delivery, leading design work in line with company quality management processes
- Prepare design calculations and drawings using AutoCAD and STRAP analysis software
- Develop relationships with new and existing clients
- Manage and co-ordinate tender preparation for projects both in the UK and overseas
- Check work for colleagues and provide feedback and recommendations
- Escalate any issues which may prevent commitments or objectives being met
- Actively manage the development of junior engineers
- Professional development as per ICE requirements

ESSENTIAL ATTRIBUTES

- Masters Degree in Civil or Structural Engineering and committed to working towards Chartered Engineer status
- 5+ years' design experience working for a consultancy, contractor, specialist supplier, or scaffold designer
- Computer literate with working knowledge of AutoCAD and structural analysis software
- Experience in supervision and mentoring of junior staff
- Desire to continue professional and technical development

DESIRABLE ATTRIBUTES

- Experience in Temporary Works Design with knowledge of BS5975 procedures
- Experience in Scaffold Design with knowledge of TG20 procedures
- Full driving licence
- Ability to travel for work, including occasional overnight stays
- Membership of a relevant professional body (eg. ICE, IStructE)

PACKAGE

- Competitive Salary
- 8% annual bonus based on performance
- Travel allowance depending on location
- 35 days annual leave inclusive of bank holidays
- Company pension scheme with employer contribution
- ICE Approved Training Scheme
- Professional fees paid
- Flexible working hours
- Private Health Insurance
- Potential relocation package

WHAT YOU CAN EXPECT FROM US

We offer the opportunity to take the lead on many exciting projects with clients in a wide range of industries in many different countries. The fast-paced environment means no two days are the same, and you will consistently be challenged to innovate and be creative in your role. We provide a learning environment where our company culture and values are central to everything we do.

You will have the opportunity to be a key player within the business, taking on levels of responsibility unparalleled in similar roles. You will also receive significant CPD investment up to and beyond ICE Chartership status with 1-2-1 mentorship from a Chartered Engineer.

We're poised for further growth and success, so if you're committed, talented and enthusiastic, Alan White Design is the right place for you.
