

Position: Design Engineer

Location: Kilmarnock

Salary: Competitive (+ Performance Bonus)

We are recruiting for an experienced Design Engineer to join our award-winning consultancy practice on a full-time basis. The role will report to a Senior Engineer and will interface with a range of stakeholders including clients, consultants, and suppliers.

KEY RESPONSIBILITIES

- Attend meetings and site visits to discuss projects and tenders
- Prepare design calculations and drawings using AutoCAD
- Ensure designs and drawings are completed to the project brief, within timescale, and within budget
- Ownership of projects from concept through to construction
- Supervise graduates and junior staff members, checking design calculations and drawings using AWD quality management procedures
- Liaise with clients and colleagues to ensure output matches client demand

ESSENTIAL ATTRIBUTES

- Degree in Civil or Structural Engineering and committed to working towards Chartered Engineer status
- 2-3 years' design experience working for a consultancy, contractor, specialist supplier, or scaffold designer
- Good knowledge of design using Eurocodes
- Computer literate with working knowledge of AutoCAD and structural analysis software
- Desire to continue professional and technical development

DESIRABLE ATTRIBUTES

- Experience in Temporary Works Design with knowledge of BS5975 procedures
- Experience in Scaffold Design with knowledge of TG20 procedures
- Full driving licence
- Ability to travel for work, including occasional overnight stays
- Membership of a relevant professional body (eg. ICE, IStructE)

PACKAGE

- Competitive Salary
- 8% annual bonus based on performance
- Travel allowance depending on location
- 35 days annual leave inclusive of bank holidays
- Company pension scheme with employer contribution
- ICE Approved Training Scheme
- Professional fees paid
- Flexible working hours
- Private Health Insurance
- Potential relocation package

WHAT YOU CAN EXPECT FROM US

We offer an opportunity to develop your professional abilities on many exciting projects with clients in a wide range of industries. This fast-paced environment means no two days are the same, and you will consistently be challenged to stretch your abilities

and improve your skills as an engineer. We provide a learning environment where our company culture and values are central to everything we do.

Working with a small practice, you will have the opportunity to be a key player within the business, taking on levels of responsibility unparalleled in similar roles. You will also receive significant CPD investment up to and beyond ICE Chartership status with 1-2-1 mentorship from a Chartered Engineer.

We're poised for further growth and success, so if you're committed, talented and enthusiastic, Alan White Design is the right place for you.

HOW TO APPLY
